

8 April 1977

STAT [] 8 April telephone conversation with Admiral Turner re PRM-11:

25X1

Re Meeting with Brown

- Gave seven-page paper to Brown
- He will review and respond (ball in his court)
- He agreed to approach for Part 3 which would be that high-level officials would address recommendations independent of any working groups [] Knoche, [] locked in room)

STAT

Miscellaneous Comments by Admiral Turner

- OK to attach appendix to seven-page report
- OK to keep the existing machinery operating for Part 3
 - This means a two-track approach
 - High officials locked in room, and
 - Sam Hoskinson's working group

On Intelligence Collection Tasking

- Once it is explicitly stated that this tasking is controlled by DCI in peacetime and by SecDef in war
- Do away with term "DCI" in the title of Collection Committees
- President decides whether DCI or SecDef in charge of those committees
- Offer a specific percentage of collection capability to military commanders on a continuing basis
- Consider having a committee structure to task intell-related (tactical assets)
- Controlled by SecDef but with a fixed percentage of capability allotted to DCI

Plans on Meeting with the Chiefs in a Couple o Weeks
